*"Jodie Nicholson is a captivating performer and writer of beautiful music. Her melodic and ethereal style alongside her note-perfect delivery can reduce the rowdiest of audiences to pin-drop silence"* - **NARC. Magazine**

*"Jodie Nicholson has beautiful tone to her voice, and if she keeps the quality up it's only a matter of time before she is a household name"* - **Fresh On The Net**

*"British singer-songwriter brings the same wistful nature as Laura Marling..."* - **Mystic Sons**

Emerging musician **Jodie Nicholson** is a 23-year-old singer/songwriter from the village of **Hurworth-on-Tees**, on the outskirts of **Darlington** in the north east of England. Jodie's organic approach to songwriting sees delicate melodies and emotive lyrics sit atop deep-rooted themes of melancholy and longing. Inspired by personal experiences and relationships, her music portrays heartfelt narratives of love, loss and healing.

Her ethereal tracks have already picked up airplay from tastemakers at **BBC Introducing** and **Amazing Radio**, as well as features for respected blogs and magazines such as **Tom Robinson's Fresh On The Net**, **NARC. Magazine** and **Mystic Sons**. Live, Jodie has performed across the north for **Sofar Sounds**, as well headlining numerous regional venues and supporting **Cattle & Cane** at a sold-out show.

With musical influences including **Tori Amos**, **Laura Marling**, **Daughter**, **Pink Floyd**, **Lucy Rose** and **The Staves**, Jodie pairs her melodic and angelic vocals with soft piano or acoustic guitar. She's not afraid to experiment and build upon each song's raw foundations of guitar/piano and vocals, really bringing her **home-spun** recordings to life through layered harmonies, strings, drums and additional instrumentation.
